

SOLARIF

GROUP

INSURANCE, RISK MANAGEMENT AND PROJECT
MEDIATION IN ONE ORGANIZATION

SOLARIF

GROUP

Who we are

Solarif was founded in 2009 and has gained extensive experience over the past years concerning PV insurance, inspections and project mediation. The strength of Solarif lies in an unique combination of specialized activities and their synergy. This does not only increase the chance for successful PV deals, but eventually also the profitability for all involved parties.

*"Over 1 billion dollars in PV systems around the world
are insured by Solarif."*

Solarif Insurance

Solarif Insurance protects, as an independent insurance agent, PV installations and their yields against damage and loss through comprehensive insurance. Thorough knowledge of both the solar energy market and insurances, combined with an extensive global insurance network, guarantees the best insurance solution for every PV installation. In addition, you could also obtain insurance for transport, the construction and assembly process and the business-, directors-, and officers liability. Moreover, you can guarantee the expected yields and granted guarantees. Solarif Insurance offers the security that you need.

SOLARIF

GROUP

Solarif Risk Management

Solarif Risk Management concentrates upon risk management and quality assurance of your PV installations. The services consist of independent inspections. More than 100 quality inspections and factory risk assessments have been carried out worldwide and thereby the quality mark, Solarif Certified, has been issued. Products certified by Solarif, stand for quality and can be insured extensively, supporting the manufacturer's warranty. The project can be guaranteed even in the event of insolvency. This can make a solar project bankable.

*"Solarif Risk Management leads to higher quality,
reliability and yield."*

Solarif Matchmaker

For investors and project developers in the world of solar energy it is difficult to find the right match. You are looking for the right business partner in a comprehensive solar world, but so far you have not found the right match. With advanced and unique matching software and the expertise of our advisors, Solarif Matchmaker connects the right investors and project developers for your project.

"Solarif Matchmaker is safe, clear and efficient."
