an independent advisor / brokerage firm  
specialized in the solar industry

# SOLARIF GROUP IN BRIEF

**1500+**

clients

**23+**

countries

**2.8GW**

capacity insured

**BE PART OF THE CHANGE YOU  
WANT TO SEE IN THE WORLD**

# Who we are

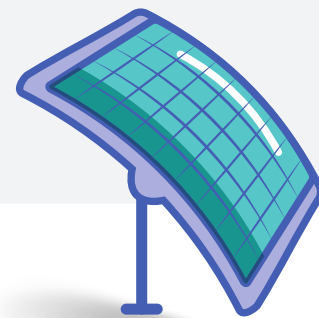

And what we've been...

## 2009

**ESTABLISHED IN 2009**

And growing since then. Solarif Group was established in 2009 in Arnhem, the Netherlands by our CEO Harry Wolkenfelt.

## 3 CORE BUSINESSES

Solarif Group provides three core businesses. Together they form Solarif Group. Solarif Insurance, Solarif Matchmaker and Solarif Risk Management.

## 3 INTERNATIONAL OFFICES

With our headquarters in the Netherlands and subsidiaries in Australia and the Philippines, we can advise you independently and offer through UNIBA network international assistance.

# MISSION&VISION

## MISSION

We want to support the global growth of solar energy. That is why we offer our clients a wide range of well-developed, functional products and services with unprecedented added value. In this way, as many PV installations as possible are realized worldwide.

## VISION

We walk through fire for our customers. With passion, knowledge and commitment we proactively help our clients reach their goals. We work with modern and efficient software and offer challenging but rewarding work for our employees. By focusing on growth, we contribute to the expansion of solar energy.

# Our Group

With us you can easily insure your solar power installation against possible damage. Do you have a large project or several projects for which you are looking for coverage, both during construction and during the operational phase? We offer customized solutions from business liability to Operational all risk and Surety Bonds. Are you looking for complete assurance? We are happy to talk to you.

.

We offer an extensive package of services for risk management and quality assurance of solar power installations. Our services cover the entire process; development, construction and operation. We have already carried out more than 250 quality inspections and factory assessments worldwide, thereby issuing our quality mark, Solarif Certified, with many advantages.

Our background and experience as specialists in the field of solar energy has created strong relationships with investors, EPCs and project developers. You can take advantage of this by buying or selling your project in the most efficient way. We match your project profile with the investment profiles of our potential investors and vice versa. Lean and mean.

# Do business with us

Why, where, when?

## PERSONAL.TRUST.KNOWLEDGE.

### ONE STOP SHOP

We are an allround solar platform.

We're here for PV insurance, risk management and matching the right PV project investors and owners.

### PERSONAL ADVISE

Keep it personal.

We are thriving as a team of 15 specialists and counting. You will always talk to a real person. No bots involved. You'll never have to miss us.

### DOWN TO EARTH

We take solar very serious.

We know from years of experience that solar panels on your business premises can increase value and reduce electrical bills. But we also know that that entails risks, which is something we are open and honest about. We are happy to think along with you. Do you want customization when it comes to your insurance plan? Sure, we can think of something together. Let's have a coffee and talk!

### TRUST

We have over 1500 trusted clients.

Who have trusted us for over many years. Why? Because we practice what we preach.

### KNOWLEDGE

Expertise is one of our assets.

Even if you're not sure what to do. We'll help you with insuring, securing or finding your PV project.
